## Pioneer ddj sb3 serato lite dj controller

Back to navigation The next product in Pioneer DJ's popular DDJ-SB series, the DDJ-SB3 offers even more portable digital DJing power than ever. This comprehensive yet portable option offers full 4-deck controls, on-jog displays, and tried-and-true mix functions such as Filter Fade and Pad Trans, the latter of which lets you cut the volume in time with the BPM when you trigger the performance pads. But that's just the beginning. The Pioneer DDJ-SB3 includes breakthroughs such as Pioneer's Pad Scratch and FX FADE functions, which open up entirely new creative avenues when you perform with Serato DJ. These days, you can't get into digital DJing without picking up on the buzz surrounding Serato DJ, and Serato DJ Lite lets you get your hands on this amazing system for free when you pick up a Pioneer Pro DJ DDJ-SB3. Whether you're emulating traditional turntable DJing or taking advantage of the extreme flexibility of your high-tech DJ controller, Serato DJ provides you with the best in-the-box DJing experience you could ask for. A few of the things that have drawn many of the DJs here at Sweetwater to Serato DJ include its customizable layout and comprehensive toolset. In other words, you can tweak the layout to fit your style, and there's no shortage of tricks you can pull off with Serato DJ. This may sound crazy, but Pioneer loaded up the DDJ-SB3 with an amazing, innovative function called Pad Scratch, and it might just change the way you DJ. With Pad Scratch, you can seamlessly pull off eight different professional scratch techniques by simply hitting the performance pads on the DDJ-SB3. These scratch techniques were actually performed by the legendary DJ Jazzy Jeff — so you know they're going to be good. Whether you use them on their own or in combination with other effects and transition effects, you'll find endless uses for Pad Scratch. When the DDJ-SB2 came out, Sweetwater DJs were seriously impressed by its Filter Fade and Pad Trans functions. These made transitions smoother and provided dynamic ducking when using the performance pads — cool stuff! With the Pioneer DDJ-SB3, it gets even better. Now you get even smoother mixing, thanks to the FX Fade feature. This feature lets you automatically cut track volume as you apply one of eight effects patterns. Talk about an easy way to bring up the quality of your transitions! A compact yet full-featured DJ controller that's perfect for mobile Serato DJ rigs 2-deck layout accommodates full 4-deck mixing for advanced performance Large jog wheels and intuitively laid out controls keep your workflow clean Rubber pads provide transport control, sampler access, cue triggers, and more Instantly pull off DJ-style scratch techniques via Pad Scratch Onboard filters and Filter Fade functions provide advanced mix options Pad Trans and FX Fade functions provide additional smooth mixing effects Built-in sound card includes all of the audio connections you need Includes a free download of Serato DJ Lite Serato DJ Lite (previously known as Serato DJ Intro) is free DJ software and can be used by Serato Intro users who have supported hardware. Or, anyone can download and use Serato DJ Lite in Practice Mode without hardware connected. Version 1.0.3 now includes the following hardware support and features. Pioneer DJ DDJ-SB3 Official support for the Pioneer DJ DDJ-SB3. An evolution on the extremely popular DDJ-SB2. 2-channel/4-deck controller that unlocks Serato DJ Lite for free World-first Pad Scratch mode with eight different scratch techniques recorded by DJ Jazzy Jeff FX Fade so you can reduce the volume and apply FX to a track at the same time. USB powered Paid upgrade to Serato DJ Pro Practice Mode Practice Mode allows you to DJ for free on your laptop with no hardware plugged in. Free for anyone to download Easy to use and has all the features required for learning to mix 2-deck player with onscreen crossfader Access to Cues and Loops Sync with onscreen pitch slider/BPM adjust Full functionality with your crates and iTunes library Access to Serato Help and Support from within the interface New UI with Performance Pad view Serato DJ Lite has refreshed user interface, along with a new Performance Pad view. Display your cue points in a new but very familiar layout This new layout will make planning and performing your routines more efficient Optimised for high resolution screens Serato DJ Lite has been optimised for high definition Retina, 4K and UHD displays. Experience a refined look and feel with Hi-DPI screen support and scalable interface Bigger Libraries and rock solid reliability Serato DJ Lite includes 64-bit support which dramatically increases power and reliability. The size of your library now has virtually no limits If you have a huge number of crates and thousands of songs, you will be able to search for them and load the tracks even faster Improved help and support Serato DJ Lite includes a new and improved Help and Support section. Includes tooltips, shortcut keys and tutorials The option to contact our support team, and the ability to search our knowledge base in-app \*Some Vestax VCI-400s may require a firmware upgrade to function correctly with Serato DJ Lite. Read this FAQ for more information. More information about Serato DJ Lite controllers Release Notes Purchase Serato DJ Pro for control of dedicated buttons for FX, along with advanced features such as Beat Jump, Slip mode, 8 Hot Cues and 8 Sample buttons. Simply connect your PC/Mac and start playing. A compact and feature rich 2-channel/4-deck controller with a world-first Scratch Pad Mode and FX Fade for creative mixing. An evolution of the popular DDJ-SB2, now with dedicated play and cue buttons, independent auto loop section and much more. Where to buy Finding new music is no longer an issue with streaming in Serato DJ Lite.
